

Hungarian ancient philosophy

Hungarians and others are maniac
mainly for 100 years.

This is a presentation containing ancient
Hungarian letters, thoughts and simple tables.

A: Anyszűz (Virgin Mother)

- She is protector of mankind and stepmother, too. She attends the fireplaces in Ice Age. Mothers haven't time to attend fireplaces, only virgins have time. Virgin Mother is daughter of Great Mother and she is the next Great Mother.

J: Jó (River)

- Where rivers called 'jó' there was that mythe: Great Mother commanded Her Son the Father to take up a little sludge below the Ocean. The Great Mother turned the sludge to Earth World.

TY: Atya (Father [of Hungarians])

- That father descended to underworld in the folktale ('Fehérlófia') where are metallic woods of planets. Other world is an exalting's form, no place, but where bads suffer before next birth/forever. Raising exalts, too. Don't worship him, or you become serve of Hungarians.

I: Igazság (Truth, Justice)

- True: peoples are stupid by own people.
- No true: people are stupid by own peoples.
- Justice:
 - love of every,
 - freedom of good acts,
 - role of good acts.

K: Kavar (Rolling, Making kids, Joy)

- Don't be selfish, love your partner. If you have more partners, be faithful to everybody. Younger mother isn't bad woman, only younger. Good partner: love, joys, ethics. Many aborte: VS „bad” birth. :(

NT: Tengri (God, Sky)

- Selfhealing: make peace with death; know your illness: rational and meditative way; let immun-system of body and soul heal and let it be ready. Animal in you is medium between you and God-in-you. A protector has power by your faith, ethics, will.

Tricolors

- The main characters of Hungarian runic script are $(3+1) \times 8$ letters. $888+8$ is symbol of crash of tricolor-haver countries and counties by tribulation, because 3 is no event, +1 is problem of tale/winter, and problem's solution. Believing in protector is good sense.

5 Elements

- Hungarian elements:
 - Earth, Sky, Water, Fire;
 - or: Water, Sun, Fire, Earth, Moon. Sun element is element of Hungarians, so a Hungarian is very good or very bad human.
- Chinese elements: Wood, Fire, Earth, Metal, Water.

Water Snake Year:

From 04.02.2013. or 05.02.2013.

A large, bold, black Chinese character '蛇' (shé), which means 'snake', is centered within a white rectangular box. The character is written in a traditional, slightly stylized font.

Year of the Snake ~ 2013

1917 1929 1941 1953 1965 1977 1989 2001

- He/She can make influence, likes mystics, he/she is clever business(wo)man, likes to tell about substance and to take revenge. You're Snake or not, don't meditate with spirits, be careful when you ask theme. Echelon: it is bad, too.
