4 pillars of destiny

Solar pillar of year: Simple elements: Heavenly Body	Solar pillar of month: Simple elements: Heavenly Body	Solar pillar of day: S. elements (Own e.): Heavenly Body	Lunar pillar of hour: Simple elements: Heavenly Body
Solar pillar of year: Zodiac Animals: Earthly Root	Solar pillar of year: Zodiac Animals: Earthly Root	Solar pillar of year: Zodiac Animals: Earthly Root	Solar pillar of year: Zodiac Animals: Earthly Root

For example: Sun	For example: Fire	For example: Earth	For example: Moon	For example: Water

Element let not be powerful or lit let not be not powerful.

- If own element is powerful:
 - by the power of source element: use only the authority and money elements;
 - by the power of own element: use also money element.
- If own element is not powerful:
 - and if you have source element: use source own and authority elements,
 - but if you have not source element, don't use the authority element.
- If own element is to powerful, you have only own element in bodies and roots. Use the own and source elements. And maybe the intelligence element, if it is not bad. Source and own you can use always, if your element is to powerful.
- If own element is to powerless, you can use in many times the Intelligence, money or authority elements. Own element is to powerless by 2 moments:
 1. Source element is not bodies or roots, or if it in a body, it can not help.
 2. Source or own element is not in any root.
 - But if the helper element is not powerful, the own element is powerless and also to powerless.
- If source element or intelligence element is to few or to much, it causes mental problems.

You can use elements in way of that substances: Q10 coensym or Vitamin C, etc.

Elements and healing

Healing by the traditional 4 elements of Hungarians

Sky	Fire	Earth	Water
Spiritual, hynotic, etc.	Animals, burn, smoke	Plants	Water, Teas

Healing of tumors by those elements in general way

Sky	Fire	Earth	Water
Know the causer of the illness; Healing the soul; saying the words of deep sleeping	Burning leaves of cannabis to smoke for the sleeper patient; Resin of bees, Toxin of bees	Grain's germ (mainly spelt's); Sorbus aucuparia L.; Cannabis, Resin of bees; Royal jelly (for women)	Helping to deep sleep by tea and turning into cold watered curtain

The causers

Infection in many times and sadness always.
Don't receive **such substance** that causes sadness also not from the doctor, however, modern science of doctors knows and can do many things.

The words of deep sleeping

Don't worry,
You will be healed, long time liver.
I pick fire by cannabis,
Bad spirits go away,
Good spirits guard him/her,
The sick can sleep deeply.

Some substances against (some?) tumor

Grain's germ: to mill, then with water or milk of horse or whey of milk of horse.

Sorbus acuparia L.: marmalade that is drink, then vinegar by marmalade. That vinegar with spelt's germ, to heal the way of „yellow water” from renal to outside.

Cannabis: good for healing of many illness. Underwear by cannabis is good against tumor of skin and allergy. Cannabis as smoke is good against illnesses of the way of air in body. Smoke and tea against astma.

Resin of bees: milling into teas/alcoholic drinks or making unction/squash. Squash=Pulp.

Resin of bees with toxin of bees and with royal jelly: against illnesses of women. Against tumor of womb by eating and by „going inside little gate of womb in „traditional” way” with many other substances Sorry, it is the not high knowledge of English words. The substances: resin of bees (10%), tisane of cannabis (20%), Matricaria recutita (20%), Equisetum arvense (10%), Rubus-leaf (10%), Valeriana officinalis (10%), Calendula officinalis (10%). If blood is out: tannin (it is acid), Viscum album (it is dangerous for antidepressant-consumers and arduous mothers and children), split of Quercus. *Split of Quercus is good against inflammation*. Let the liquor be tepid. Orgasm needs, too. The second type of the wash out in this way is by milk of horse or milk of human.

Don't eat/drink egg/meat/milk of joyless animal, or becoming suffering of tumor.

Don't have negative feels and feelings. Want to live (but don't be covardly).

Making smoke: candle under vessel of dry leaves of cannabis.

Germ of spelt: Make squash by refracting and cook it. Or: making with Moon on board. In Full Moon Time dry and mill it and give it in time of weeks to the sick mixed with water.

Preventive foods: garlic, tomato, asparagus, pepper, red wine, pollen, honey, fish, pasty animals. Pasty animals against bad feeling. Such animal for example a caterpillar.

5 elements' system (very reconstruction; Is it twin of 4 e.'s system?)

Too powerful Earth or Fire causes illnesses of modern civilisation. Antioxidants are very important against the too powerful Earth or Fire. And Omega 3. Omega 6 is from plants, make the inflammations against wounds, and omega 6 from fishes is good against inflammations.

Element	Fire	Earth
Creature	Animals	Plants
Substance	Meat, Fat	Sugar

NO BELIEVE. SEARCH IS IMPORTANT. Then you could think about elements or other things.

Uniting of 5 elements

Male Sun	+	Female Earth	:	Earth	:	Sunset?
Female Sun	+	Male Moon	:	Moon	:	Solar eclipse?
Male Fire	+	Female Moon	:	Water	:	Storm?
Female Fire	+	Male Water	:	Sun	:	Making love?

Elements and soul

THE 4 ELEMENTS IN THE WAY OF THE SUN			
Morning	Noon	Evening	Night
East	South	West	North
Air	Fire	Earth	Water

In the darkness you can not see. Seeing is the most important sense. Who is sleeping or stupored or dead, he or she can not sense you, but who is sleeping or stupored, he or she live. So, soul of life, spirit, resurrection exalt. Resurrection exalts as getting up. But really exalts souls, tas breath and spirit? Visions could not be to strong arguments. Only flying, at least other perspectives?
